# Fore/word and Back/word The Fourth Paradoxist Manifesto The Paradoxist Distich Theory

The **PARADOXIST DISTICH** consists of two verses, antithetic to each other, but which together amalgamate in a whole defining (or making connection with) the title.

Commonly, the second verse negates the first, containing therefore an antonymic/antagonistic notion/collocation or opposite idea.

## The making of the distich:

- Take a dictionary of phrases and linguistic expressions, proverbs, sayings, teachings, aphorisms, riddles, adages, maxims, quips, or famous sayings of well-known personalities, and contradict them without pity, shear them!
- Or take a dictionary of antonyms, and another of synonyms and joggle with contradictory notions/collocation/phrases - homogenizing heterogenic elements; choose also an adequate title and you enter in Paradoxism.

The School of Paradoxist Literature, which evolved around 1980s, continues through these bi-verses closed in a new lyric exact formula, but with an opening to essence. For this kind of procedural poems one can elaborate mathematical algorithms and implement them in a computer: but, it is preferable a machine with ... soul!

#### **Characteristics:**

The whole paradoxist distich should be as a geometric unitary parabola, hyperbola, ellipse at the borders between art, philosophy, rebus, and mathematics – which exist in complementariness; and to contain:

- Antitheses, antinomies, antagonisms, antiphrases, paraphrases, contrary metaphors, polarizations;
- paradoxes at the semantic level: ideate, social, political, theological, linguistic, psychological, philosophical, and even scientific; exactly this paradox provides the savory to the whole; from here the beauty of the writing, the flavor of the small metaphor fluttering its twined wings;
- pseudo-paradoxes here and there;
- preposterous character, against an obsolete academism and behind the times traditionalism (Al. Lungu genus);
- the oxymoronic replication / fusion / juxtaposition of jargons, linguistic expressions, patterns, archetypes, schemes, blueprints, classic stencils;
- the finding of (molding/embodying in) creation formulae and anti-formulae;
- counter poems;
- antithetic epigram styles;

- parodies of phrases and linguistic expressions, proverbs, sayings, aphorisms, adages, assessments, (petrified, and not only) language clichés, grammatical structures, phraseologies by:
  - o alterations of sense to 45 or 90 degrees;
  - o in the opposite sense, against (at 180 degrees);
  - the figurative interpreted strictly speaking, and vice versa (breach of all conventions);
- paraphrases for the purpose of refreshing the dead patterns;
- or in metaphorical nonsense, exaggerated, parabolic (reduction enlarged, like at a microscope, penetrating in the infinitesimal of the small worlds, concentrated);
- idiosyncrasies at contradictions, incongruences, divergences, deformations, alterations, distortions, mystifications, poetic mock-ups and anti/non-poetics;
- text, para-text, anti-text, inter-text, non-text with paradoxist modulations (sublanguage, over-language, meta-language);
- inspired / chiseled folklore: quips, wisecracks, jokes (from cartoon characters and shows (Bulã, Itzic and Ştrul));
- or juggled with the homonyms' ambiguity (multi-sense);
- some paradoxes became common places, metaphors, they are traditionalized although initially they encountered resistance, they were rejected; that's the fait accompli of any paradox!

The paradoxist distiches should be:

- diagrammatic;
- providing some knowledge;
- philosophical quintessence;
- brilliant imagination;
- witty words, memorable, soothing your soul;
- few words; *non multa, sed multum*: maximizing the minimum, minimizing the maximum these days, when people read less, we need concise writings;
- with diversity of topics, notional spheres, paradoxist poetic equations;
- put it bluntly, openly, funny, cleverly (if we use the scalpel for the lyric's surgery);
- when read, the verses should glide;
- at least one interior rhythm (even rhyme) for a plus of harmony (in this apparent disharmony):
- the metric structure of the two verses is randomly selected;
- the phrases show some special sweetness;
- attention at the poem division; playful in time and contra-time, caesura and anticaesura:
- having a title, the poem is integrated, rounds off, becomes an entity;
- the title, short and comprehensive, should contain the key of the poetics' corpus (the referred to and referring to it)
- a sort of definitions for lyric rebuses: based on anti-theses, and utilizing bi-verses that define the title;
- do not interpret the paradoxist distiches as simple witticisms, but meanings of meaningless (deeperly going to the substance, to the kernel), other times even meaningless of meanings (simplistic impressions, after superficial lecture, that the material is understood profoundly);
- of an organic eclecticism.

This volume is untranslatable, but adaptable to other language's clichés.

#### **Historical considerations:**

I discovered the Paradoxism, I did not invent it. It existed before ... paradoxists. The popular wisdom, and a part of the cultured creation, fit closely on the classical paradoxist mould; with this purpose, let see the following examples:

- beginning with the antique Greeks, through Plato (who puts in Protagoras' mouth):

Everybody / Teaches everybody;

or our Roman ancestors:

Festina / Lente (Rush / Slowly);

continuing with old Romanian aphorisms:

Stay curved / and think straight (C. Negruzzi, <Pîcală şi Tîndală>, fragment, 1840);

how did Voltaire say?

The rules in art are made / To be ignored;

and then?!

- Baudelaire with "Les fleurs du mal";
- Eminescu about a virgin:

Willing / Unwilling

passing by Caragiale, with his:

Clean / Dirty

- the jocular Arghezi from Oltenia:

We say something / And smoke something else! (observe the transparent allusion) but also his poems from "Flori de mucigai" ("Mold's flowers");

the political paradox:

for example

The more some want to put Marshal Antonescu down, even more do the opposite camp glorifying him – it is like using a scale: when a pan is too low, you feel adding more weight on the opposite pan to establish the equilibrium; it is a psychological process. The same, during a game between two teams for which you don't have any preference, you tend to be supportive of the team that has less chances to win; (+ and - should balance each other); therefore, we can make the affirmation that

"Ion Antonescu fell / Rising"

- therefore, their effort to destroy him, in fact helped the rise of his popularity; it is the action of the Opposite Effect, plus the Equilibrium Law; and vice versa; excessive ovations produce converse reactions: He, the favored of the regime "The poet Mihai Beniuc ascending / He failed"; unanimity (positive or negative) does not exist;
- About the Stalinist bureaucracy:

Two people shovel / Three people report;

Grigore Moisil's irony :

ION BARBU: Is the biggest mathematician / amongst poets, And the biggest poet / amongst mathematicians!

(Which, unfortunately-fortunately, applies to me as well?);

similarly, Alberto Caeiro, a.k.a. Fernando Pessoa:

The unique secret sense of things

Is that these don't hold any secret sense;

and more recent, a social paradox

"The power / of the powerless"

essay of Vaclav Havel, who from a dissident (without any power), becomes President (with the highest power) in the past Czechoslovakia, implementing a democratic country, which in turn tears itself apart:

O. Paler in "Flacara" ("The Flame") publication:

SPECIALIZATION means

To know more and more / about less and less,

Until you'll know everything / about nothing!

the economic paradox:

Countries that produce too much / which they don't consume And consume a lot / from what they don't produce (Roger Garaudy, 1997);

- Caracal "shockers":
  - a) Prison / on the Liberty street!
  - b) Cemetery / on the Resurrection street!
  - c) Robbery / at the Police Station!
  - d) Fire / at the Fire Station!
- Playful talk, in contrary sense:

I do you a favor; / Do you get upset?

(Well, obviously not!);

- Or proverbs, maxims, sayings, witticisms, often used contemporaneous reflections:

The lazybones / Runs around more

Let's go at work to work; / God help us not to find work!

He laughs / Of distress!

Take it away from me / Otherwise I take him out

Taking a deaf dog / To hunting

Catch the blind, / Tear his eyes out

Whip the saddle / To attention the mare!

When two argue / The third wins

Let be a wolf / Eaten by a sheep!

The man who doesn't serve / Will not become a boss

You drink his money away / And he drinks your money away

Making strong knots, / Requires time to undo

Your have hope / Like the beardless for the beard

Penny wise / And pound foolish

- (I. C. Hințescu, "Proverbele românilor", ("Romanian's Proverbs"), Edition in care of Constantin Negreanu and Ion Bratu, Forward by I. C. Chiţimia, Facla Publishing House, Timişoara, 1985) (reverse interpretations);
- And the English proverb:

A glass is half full / Or half empty,

therefore any thing can be positive and negative; it depends of your angle of interpretation – this principle is used by propagandists;

- From the Newspapers' big headlines (or even from books' titles from bookstores, or references in a library), which, if in their contents contain a paradox, they become more inciting and shocking when read [see the predilection of many writers in using antinomies in order to surprise (or attract) the public];
- Even at football, the coach advising his players:

The best defense / Is the attack -

Without being a paradox, but a tactic, a reality;

- Extending to the American Murphy's laws of a bitter humor:

The probability that a slice of bread will fall on its spread face is greater than that of falling on its non-spread face

(!)

- And in Calculus there exists, somehow paradoxist (but, however, non paradoxical!)

Sup inf (M) is the dual of inf sup (M),

which means the largest from the smallest, and the smallest from the largest, respectively.

Great, isn't it?

Or the upside-down "drunk's song":

From the drunk / tavern I'm coming,

On the fence I walk / the road holding.

With the dogs / I hit the stones

And am friend / with foe abalones!

And the following three semi-paradoxist verses:

Who knows how a thing is done, does it!

Who doesn't know, teaches others how to do it!

And who doesn't know how to do it nor to teach others, leads!!

(applicable to previous party's secretaries, cultural guides, and not only);

- During the dictatorship:

Art. 1. The boss is right.

Art. 2. The boss is always right.

Art. 3. When the boss is not right, it is applicable Art. 1 or Art. 2;

- Or from the jokes whispered sometime in various corners.

CEAUŞESCU ERA

The pessimist: Worst that this is not possible.

The optimist: No, it is possible (!)

(and, indeed, the transition period proves to be much more difficult) which jokes intellectually sweetening those black years;

 Plus the famous popular <tops> (synonym: like jokes, gags, with semi-absurd nuances, but nevertheless of a very... plastic logic!)

THE STUPIDITY TOP:

To believe that your mother in law Is virgin!

or

THE SWIMMING TOP:

To swim with one hand, and with the other

To move your legs (!)

or

THE HEN'S TOP:

The hen's legs are similarly parallel,

Especially the left one (!!)

(the second line tops all).

And many others, under the reader's eye and at listener's ear.

#### Types of Paradoxist distiches

#### 1. Clichés paraphrased:

"The right man / In the wrong place" = OFFENDER

#### 2. Parodies:

the popular proverb <Talking about the wolf / And the wolf is at the door> becomes, through ironic substitution,

"Talking about the wolf / And the pig is at the door (!)" = COINCIDENCE;

#### 3. Reversed formulae:

"Any exception / Admits rules" (instead of <Any rule / admits exceptions>);

#### 4. Double negation

which means affirmation:

"War / Against war" = PEACE;

#### 5. <u>Double affirmation</u>,

which means negation, strange no?

"The sanctification / Of saints" = ORDINATION, that is, the saints have their sins, therefore they are not saints;

#### 6. Turn around on false tracks:

"With one eye of glass, / And the other of cat!" (You think of a being, but in fact is) = THE MOTORCYCLE;

#### 7. <u>Hyperboles</u> (exaggeratedly):

"Out of four workers / Five are bosses" = BUREAUCRACY;

#### 8. With nuance changeable from the title:

"She was virgin / twice" =

- a) serious (biblical): VIRGIN MARY;
- b) or joking: PROSTITUTE;

#### 9. Epigrammatic:

TO SOMEONE WHO LIKES MEETINGS = "Let him meet / With himself":

#### 10. Pseudo-paradoxes:

"Non-guilty ones / Indicted ones" = INNOCENTS

"Motivation / Of no motivation" = NEGLECT;

#### 11. Tautologies:

"Close to / Close" = PROXIMITY

"Beyond / The beyond" = EXTREME FAR AWAY

"City / Of cities" = METROPOLIS

"Dipper / Than deep" = BOTTOM

"How friendly / Are our friends? = VIGILANCE:

#### 12. Redundant:

"Do we go / Or we don't stay?" = WHERE

"Are you sleeping, / Or you did not wake?" = CUCKOO CLOCK

#### 13. Based on pleonasms:

"He invents something / Already invented" = PLAGIARIST Public transportation cashier: "Advance / Forward!";

#### 14. or on anti-pleonasms:

THE TRAVELERS:

"No, we advance / Backwards!";

#### 15. Substitution of the attribute in collocations

(using mockery, ridicule, and contra-sense):

<Lame of a leg>, which is trivial collocation, and which becomes by substitution:

"Blind / Of a leg" = LAMELY

(and so it becomes more interesting);

#### 16. Substitution of the complement in collocations

[pedaling on a metamorphic nonsense (not absurd), exaggerating the collocation into surrealist direction):

<With the socks broken at the ankle>, which is a common expression, becomes after substitution:

"With the broken socks / On your rear!" = RAGGED (good-humor);

#### 17. Permutation of various parts of the whole:

<Becomes devil's brother / Until crosses the lake>

"Becomes lake's brother / Until the devil goes away" = PUDDLE;

<Don't put the hand / Where your pot doesn't simmer> has variants:

"Don't put the pot / Where your hand doesn't simmer".

or

"Your pot doesn't simmer / Where you don't put the hand" = ATTEMPT;

What are the 'original' forms of the following expression's permutations?

```
"The hammer / Praises the gipsy"

"Eye to eye / Don't pull the vultures"

"Beat the hot / While is iron"

"The cat with mice / Does not catch bell"

"Good dog / In a cheese sack"

"Behind the heroes / Many wars turn up"

"Don't get broken / That you stretch"

"Same hat / With other Maria"

"The trunk doesn't jump far of / Its chips"

"Drop stupid pear / In the sapless mouth"

"The gift of teeth / Is not looked up in horse"

?

Find a corresponding title for each of these 11 paradoxist distiches;
```

#### 18. The negation of the clichés

#### 19. Antonymization (substantively, adjectively, etc.):

```
<Sweet as / honey> becomes

"Sweet as / The gall" = BITTER (alcoholic beverage), and

"Bitter as / The honey" = SUGAR SYRUP;
```

#### 20. Fable against the grain:

```
AND THEY HAD A DAUGHTER SO BEAUTIFUL... //
"That you could look at her / But at sun not"!
(<sun> and <her> have been transposed);
```

# 21. Change in grammatical category (preserving substitutions' homonymy):

```
IN NEED // "The good friend / Hardly is detected" (Adverbial of place <in need> is changed in adverbial of manner <hardly> using a phonetic substitution), and vice versa: HARDLY // "The good friend / In need is known";
```

#### 22. Epistolary or colloquia style:

DEAR TEACHER, // "The child knows to read / But doesn't know the alphabet" observe the aberration):

#### 23. Puzzles

"He looks at you / Without seeing you" = (Who? THE MOLE, because does not have eyes; or THE BLIND);

#### 24. Metaphors:

"I affably bathe in the nightly / light of your ebony locks of hair" = LOVE;

#### 25. Philosophical:

PARSIFAL (Greek): "He didn't know / That he knew";

#### 26. <u>Distiches – translations:</u>

VOLENS NOLENS = "Willy / Nilly";

#### 27. Pure scientific definitions

"Superior form / Of inferior species" = AMEBA;

#### 28. Homonymic puzzles (rebus)

"More sea than the / Sea" = THE OCEAN;

#### 29. Distiches of dual verses:

"The science of religion / Or the religion of science" = THEOLOGY;

#### 30. Paradoxist poems-collage:

Violent images, collected from the press or mass media, which alternate discordantly one to each other (volume in work);

#### 31. Semi-collage poems:

Collages + contradictory original creations (volume in work);

#### 32. The majority of distiches can be generalized:

"To see what / Others don't see" = PERSPICACIOUS(I)

"To hear what / Others don't hear" = PERSPICACIOUS (II)

Expanding we have

"{Predicate} what / Others don't {Predicate};

Analogous UNDER QUESTION MARK:

"How free / Is the free press?

Where <free> and could be substituted by {attributes}, and {subjects}
respectively;

#### 33. Snapped (entrapped) in creationist formulae:

Let <S(N)> a noun at nominative, <S(G)> a noun at genitive, <S(A)> an adjectival noun, <A> an adjective, <V> a verb,
<Adv> an adverb,
<Adv/A> an adjectival adverb,
<V/S> a substantivized verb,
<Non-S> the antonym of the noun S,
<Non-A> the antonym of the adjective A
<Non-Adv> the antonym of the adverb Adv
<Non-V> the negation of the verb V,

{plus the connection particles (prepositions, conjunctions, etc.) modified accordingly}.

Here are some categories:

a) < S(N) > / < S(G) >

"The critique / Of the criticism" = EXEGETICS

b) <S> / <S/A>

"An occasion / Occasionally" = MISHAP

c) <S> / <Non-S>

"Adhesion / To no adhesions" = LIBERTINISM

"Any known / Has an unknown" = THE EQUATION

d) <V> / <Non-V/S>

"It represents / The non-representing" = INSIGNIFICANT

And vice versa

e) <Adv> / <Non-Adv/A>

"Serious in / His non-seriousness" = FUNNY

"Honestly / He is a non-serious individual" = SINCERITY formulae which should be invented by active (no passive) readers ...?...?...

#### 34. Pairs of dual distiches:

Defining the same notion (title):

"Anarchical / Melody" = JAZZ (I)

and

"Melodious / Anarchy" = JAZZ (II)

or different notions:

"Professional / Amateur" = DILETTANTE

"Amateur / Professional" = PASSIONATE;

#### 35. Double paradox:

"Anarchical melody / Or melodious anarchy" = JAZZ

"The sense has a nonsense, / And the nonsense has a sense" = THE ESSENCE OF PARADOXISM

(Sometimes is done by combining two dual distiches);

#### 36. Double semi-paradox:

"Renowned geologist amongst physicists,

# And physicist amongst geologists" = GEOPHYSICIST (Sometimes is done by combining two semi-paradoxist distiches);

#### 37. Novel of paradoxist distiches (concatenated):

with antagonist chapters; Example: PERPLEXING YOU!

#### FIRST CHAPTER

&1

Where there is wisdom The stupidity also nests

&2

Intelligent people, geniuses, Sometimes make childish errors

&3

They complicate to no purpose Simple things

&4

In a coherence Very incoherent

&5

Their international recognition Becomes unrecognizable

#### SECOND CHAPTER

&1

Where there is enough stupidity Occasionally, the wisdom nests

&2

Mentally reduced men, anonymous, Occasionally come up with superb assertions

&3

They usefully simplify Complex things

&4

In an incoherence Very coherent.

&5

Their international non- recognition Becomes recognizable

EPILOG

Any exception Admits rules

The literary currents are a form and re-form of reply to the world, in this end of the second millennium of science and technology, when we witness an electronic revolution, an informational revolution, *World Wide Web*, <The Internet>, when the poetry is dead, therefore the poetry is not dead – and new formulae of expression need to be invented.

And this is not a non-sense; instead it is a lyric adaptation to the anti-lyric, when the art is a non-art itself...

Introducing species of poetry with a novel *fixed form*, the paradoxism captures a new way (in fact very old!) of representation.

For legitimating the new poems we present, below, a prime number, 601\* of typical classical p-a-r-a-d-o-x-i-s-t d-i-s-t-i-c-h-e-s, collected and refined during 1993-1998.

# THE LAWS OF PARADOXISM12

Any phenomenon has significance And insignificance 2) Any thing has value And a non-value 3) The sense Has a non-sense 4) The non-sense Has a sense 5) - PARADOX 1 Everything is "α", Even "Non-α"

1)

7) - PARADOX 3

Even "α"!

6) - PARADOX 2

Everything is "Non-α",

Nothing is "α",

<sup>&</sup>lt;sup>2</sup> In mathematics they are called Smarandache paradoxes, see the next references (e. n.).

Not even "α"!

[These three paradoxes are equivalent.]

By substituting " $\alpha$ " with a corresponding attribute and, evident, "**Non-** $\alpha$ " with its antonym, one obtains interesting particular cases. For example:

All is possible, / Even the impossible! [= the Paradoxist's motto] All are absents, / Even the presents [= nobody pays any attention to the meeting]

Everything is relative, / Even the Relativity Theory [and, indeed, it has been discovered that the speed of light is not the ultimate speed in the Universe, therefore Einstein was mistaken]

Nothing is perfect, / Not even the perfection!

### Exercises for Readers and Invitations to Writers

The poems would excel through their definition's beauty, their gimmick. For example, find a title for each of the following 13 distiches:

Inconsolable / Consoler
Seeming / Unseemly
The most corrupts / Are those so called uncorrupted
You're playing / With are you screwing up yourself?
Help me / By not helping me
I drink , / And you get drunk!
An intrinsic value / Extrinsically
I'm drifting away / The nearness..
Art is the reality / Of my imagination
A small beginning / For MUCH
I'll offer an advice to you: / Don't believe advices
I swear to you / On my lack of swerings
Angel / Diabolically

Reciprocally, create a definition (paradoxist distich) for each title [notion (or syntagma) = key]:

MISTRESS, HOT, MARRIAGE BED, WITHOUT DISCRETION, LONGING TO GO, WHERE?, TO PRISON, TO REMEMBER, SINCE I WAS BORN, STRIPED, DEAD DRUNK, BOO!, 13,

which will be published in the next edition of the "Paradoxism" magazine.

Also, the author waits for Paradoxist Distiches, as well as essay about this poetry with fix form, typed/computerized manuscripts, for the next anthology which will contain world wide writers, in various languages. The contributors will receive a copy of the publication containing their submissions.

The author's intention is to materialize a Paradoxist dictionary/encyclopedia containing distiches, classified by themes, key words, poets, and definition types. {Send your contributions at the address shown in preface.}

Founder of Paradoxism, in which he organically connects heterogenic elements from the knowledge fields, Florentin Smarandache proposes to us now a new species of poetry:

<u>paradoxist distich</u> is a two-line lyric, in which the two verses are antithetic to each other, but together amalgamate in a whole defining (or making connection with) the title.

Many poems, from this volume (completely different in form and content from what was written until now), collected and processed from the folklore, or created, are memorable indeed:

"ATHEIST // Faithful / In his lack of faith"

"SOLUTION // It's done: / 'Can't do this'" (!)

"JET PLANE // So smoothly flying ... / As if it stays put"

"SOCIALIST COMPETITION // Better slowly and badly / Than fast and properly"

(!)

"RELATED // Similarly, / But different".

In addition, the author makes also up *creation formulae* (eh, because of his ... mathematical deformation!) in <Fore\word and back\word>, which is, in fact, an article of literary history theory, that includes also The Fourth Paradoxist Manifesto.
